## DETAILED ACTION

### *Drawings*

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "5" has been used to designate both abutment surface and stop surface. (See page 13, lines 11 and 28). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

2. Claims 8-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 8 and 9, the phrase "the upper abutment surface" lacks antecedent basis.

In claim 10, the phrase "the top of the notch" and "the top of the upper stop surface" and "the upper stop surface" lacks antecedent basis.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 5-8, 40 is rejected under 35 U.S.C. 102(b) as being anticipated by Irving, U. S. Patent 2,639,524. Irving teaches a first abutment surface (the inside of

Art Unit: 3611

hook 21), a second abutment surface (inside of bend 18), notch (area between arm 19, bend 18, arm 20, and inside hook 18), and a label.

5. Note: the examiner will consider favorably positively reciting that the label abuts the first and second abutment surfaces.

6. Claim 33 is rejected under 35 U.S.C. 102(b) as being anticipated by Berrigan, U. S. Patent 1,247,622. Berrigan teaches a stake 4 having a non-circular cross-section and a plate 7 having a non-circular opening, wherein the plate is adapted to rotate on the stake.

#### ***Allowable Subject Matter***

7. Claims 2-4, 11, 15, 17, 19-20, 34-37, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims <sup>9 CD</sup>8-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. Claim 32, 39, 41-43 are allowed.

#### ***Conclusion***

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3611

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
